

Cordless Jig Saw

DJV141, DJV142

DJV181, DJV182

Satisfy Professional's Needs

# As powerful as corded Jigsaws, yet light weight

DJV142, DJV182

Top handle type

DJV141, DJV181

Barrel handle type

# Excellent Performance Provides High Productivity

## Powerful BLDC motor

provides higher operating efficiency than that of the current BLDC motor, increased max output power and work amount on a single full battery charge.

# BL MOTOR

### Barrel handle type

DJV181 

DJV141 

### Top handle type

DJV182 

DJV142 

# Compact, Lightweight design

## Barrel handle type

**2.5kg (DJV181) / 2.4kg (DJV141)**

DJV181; with battery BL1840

DJV141; with battery BL1440

## Electronic push button switch

located on both side of Housing

### How to start the machine;

Press the button A once<sup>\*1</sup>, the LED light turns on, and you press the button B within 10 seconds<sup>\*2</sup>, the machine starts.

### How to stop the machine;

Press either of the buttons A or B, the machine stops.

\*1: If you press the button A again within 10 seconds, the LED light turns off and the machine backs to the locking mode.

\*2: After 10 seconds you turned on the LED light, the light automatically turns off and the machine backs to the locking mode.

Note: The button B does not work while the machine is in the locking mode.

## Top handle type

**2.6kg (DJV182) / 2.5kg (DJV142)**

DJV182; with battery BL1840

DJV142; with battery BL1440

## Trigger switch with lock-on button

provides the same maneuverability as AC models

### How to start the machine;

Press Lock-off button once<sup>\*1</sup>, the LED light turns on, and you pull the trigger of Switch within 10 seconds<sup>\*2</sup>, the machine starts.

### How to stop the machine;

Release Trigger switch, the machine stops.

\*1: If you press Lock-off button again within 10 seconds, the LED light turns off and the machine backs to the locking mode.

\*2: After 10 seconds you turned on the LED light, the light automatically turns off and the machine backs to the locking mode.

Note: Trigger switch does not work while the machine is in the locking mode.

## LED job light (twin-light)

for illuminated operation

## Toolless blade clamp

Blade can be attached with single action - simply by pushing it into the clamp;

can be also removed easily with single action - simply by turning large lever

Photo: DJV182

**Ergonomically designed handle with soft grip**

Provides comfortable grip and more control while minimizing hand fatigue and pain.

**Powered by 14.4V/ 18V Li-ion batteries**

- High power density allows compact and lightweight tool design without power loss.
- Can be charged at any time because Li-ion battery is free from memory effect.

**Variable speed control by dial**

located on the rear side for easier operation

**Newly designed dust nozzle**

Dust nozzle can be set to Base firmly with Thumb screw.

Front cuff is hard to fall out from the nozzle by corrugated shape nozzle end.

Front cuff 24 (option)

Dust nozzle can be attached over the sawdust exhaust port for connection to Makita vacuum cleaner.

**Blower function**

keeps the cut line clean.

**Soft start**

allows for accurate landing of the blade on the surface of workpiece in various applications.

**Soft no load speed**

reduces the blade stroke at a no load speed of 3,500rpm (highest speed mode) for easy trace of cutting line.

**3 Orbital settings + Straight cutting**

Optimum cutting action can be selected by simply turning the change lever.

**Cover Plate**

Protects workpiece from scratches

Rigid aluminum base bevels 0 to 45° left and right.
